

This volume presents 30 awarded and shortlisted projects representative of the vast urban and architectural reflection that emerges annually at the workshops of Ecole Polytechnique Federale de Lausanne (EPFL). The proposals are as yet incomplete or unfinished, and serve to generate discussion in hopes of providing innovative analysis that is capable of changing our worldview. They are also highly diverse, from wood charcoal baths and the redevelopment of abandoned industrial silos, to a public infrastructure to reconnect the 9th Ward in New Orleans, and a quick and flexible, demountable system for sheltering palaeontology excavation sites.
