

# Tomorrow, or fine day, or cloudy, or rain?: 4 generation of X-ray exposed persons, and track for over 100 years Volume 2

As a result of put this statement on Twitter in February 2013, the following people have to follow.????????????????????????????????

- 1.Barack H. Obama is the 44th President of the United States.
- 2.Secretary Kathleen Sebelius of the U.S. Department of Health.
- 3.President of SoftBank?Masayoshi Son.??

Angry and I am crying. Thought this was going to exposure and other peoples affairs as a young man of 26 years old, a possibility that I myself have been exposed to last came out. Radiation exposure does not change exposure to hydrogen bomb and X-ray irradiation CT scan atomic bomb. This is a representation of the experience of the family over four generations / hundred years and my own as an X-ray exposed persons. (Volume 1) It marks the involvement of this story with me prologue, and the origin of the X-ray. Emotional symptoms and who give a brilliant sometimes face and youth Chapter 1, is set two-stage horizontal up and down. Can you look at that time feeling symptoms and inside and outside of the body that appear from time to time, the various episodes and the lower part, the course of life of up to 30s from my elementary school days of the upper section. I am represented by a number in parentheses. (Volume 2) Chapter 2 is a summary of current up to the infant from the author. Chapter 3 was to follow the example of radiation exposure to the atomic bomb, hydrogen bomb, nuclear exposure in the past. (Volume 3) I will verify Now, that danger is here and that currently exist and exposure various cases in the epilogue. I talk in the following manner. Children and grandchildren with me and my father has been plagued by various diseases of unknown cause over a century / 4 generations. I stood think to investigate the cause of the problem is inspired by the Fukushima nuclear accident, and trying to write a book. It will be that people similar symptoms may

appear if there exposure to various other X-ray exposure CT scan radiation exposure, nuclear power plant, nuclear exposure in the future will increase. It will be onset symptoms and you do not know to medical personnel in many cases. There are only able to watch the symptoms themselves and their families on their own, and continue to deal with. All truncated as incurable and rare disease, can not be neglected. Treatment of any also will not be done for severe. There is no way you can only protect yourself myself in this day and age. There are a variety of information on the Internet, but it must have the knowledge that distinguish the authenticity. There is no book that depicts finely that the symptoms of exposure to until now. I hope to serve the needs in various situations. I found that it is exposed persons by CT scan in the epilogue. Exposure to radiation is the Lost in other peoples affairs in today for me. Issue a revised version without notice if there is a new deployment or when a new fact has been found. H H
