

## 7 Minutes to Natural Pain Release

Though pain affects millions of people daily, it is one of the most mysterious and hard-to-treat conditions. Pain can have many causes, is experienced subjectively in varieties of different ways, and often defies the most advanced treatments available to modern medicine. Yet physicians such as Daniel J. Benor, as well as hundreds of other doctors and complementary therapists worldwide, are developing simple and safe ways to treat pain naturally. They have discovered that addressing underlying emotional traumas often leads to the rapid and permanent alleviation of pain. When emotional pain is cleared, physical pain often dissipates too. WHEE is one in a new group of therapies called Energy Psychology. WHEE changes a person's bio-electromagnetic energy system and consciousness - and facilitates the healing of physical problems. In the same way that changing the position of two magnets makes the iron filings between them shift, the bio-energy field changes produced by WHEE often result in rapid and painless healing on all levels of a person's being.
