

## Comparative Christianity: A Latter-day Saint View

Comparative Christianity: A Latter-day Saint View provides for a Mormon reader an overview of the tenants, practices and uniqueness of seventeen major denominations within Christianity. Comparative Christianity investigates the origins of religious belief and entertains such questions as: Religion! Is it a Gift from God or a Product of Man? Comparative Christianity looks at each of the worlds living religions and identifies why Christianity is entirely unique. Comparative Christianity identifies the major branches within Christianity and the development of historic creeds as it presents a historical sketch of Christian history. Comparative Christianity places Mormonism within the parameters of the Christian Faith but also shows why it is viewed by some as the worlds next living religion. Comparative Christianity encourages Latter-day Saints to establish cordial and respectful relations with people of different beliefs.
