

This is a pocket-sized guide to prescribing ophthalmic drugs for the general practitioner. This edition has been redesigned to enable speedy access to information, and contains a complete list of all ophthalmic pharmaceuticals. A therapeutic drug index aids in the location of all ophthalmic and systemic drugs in a pharmacologic category. Approximately 50 more systemic drugs have been added to this list.

Pain Management and Procedural Sedation Handbook: Mobile Medicine Series, 1e, Washington State Medicaid Launching Health Homes July 1, 2013 (OPEN MINDS Weekly News Wire), How to Take a Patients Medical History -- A Handbook on Chinese Medical Terminology (English and Chinese Edition), Palliative Care Formulary (PCF5), Patient Care in Radiography: With an Introduction to Medical Imaging, 7e (Ehrlich, Patient Care in Radiography),
