

FUTURO - The House of Tomorrow: Compiled From Relics In CyberSpace

Futuro or Futuro House, is a round, prefabricated house designed by Matti Suuronen, about 100 were built during the late 1960s and early 1970s. The distinctive flying saucer like shape and airplane hatch entrance has made the houses popular among collectors. The Futuro is composed of polyester plastic and fiberglass, measuring about 3 meters high and 8 meters in diameter. Hi Joe, I enjoyed your panels very much -- You have a good style, and should (with luck) do very well down the line... We can all use that in our careers. Sincerely, TH (Tom Hattan)/KNX News Radio ***** Hey, Joe...It was good to see you at CityWalk today, even if it was just for a couplea seconds. Enjoyed seeing the Hulk and the Thing in Funny Paperz. Youre proof of the fact that you cant keep a good man down! Wishing you all the best, as always-- Excelsior! Stan -STAN LEE/Marvel ***** Joe is a national treasure! Im a marketing expert and cite Joe King as a great example of a very clever artistic person who understands well how to put together the marketing puzzle pieces so he can earn a living solely as a creator of joy and insight. Cartoonist Joe Kings indie books are part of his overall positioning (branding) as an illustrator, cartoonist, book designer and marketing producer. His syndicated cartoon strip is published in California newspapers, his caricatures are treasured artwork... -Bruce Batchelor/Agio Publishing *****
