

Chinas Underground Catholic Church Realities

Introduction I use to think of China as a world away. I thought whatever was going on there was none of my affair. I didnt know anything about their government or the struggles of their people. I was totally in touch with my simple little safety zone, the one of only my small world. I have grown up here in midsized city USA, safe from many terrible things that our Christian brothers and sisters in other parts of the world do not take for granted. This is just a brief out-line of a two week mission trip to China. Many things are vague for the protection of those walking a very difficult path in a difficult world. Dedication Picture a room where there are on any given day 40-50 new born babies. In this particular room there are only two workers to care for the infants. They work a very tough 12 hour shift and then lock the doors and go home, leaving the babies to bare life alone for the next 12 hours. The next morning they move the dead and dying ones to the hospice side of the room where death awaits them. Soon their bodies are taken to the incinerator. This book is dedicated to all of those children who die in countries such as China where there is no protection for the unborn and limited protection for the newly born. May the Lord bless each one of these children and may the world come to learn their value. At the very moment that you are reading this many are struggling for their last breath. Please add these children to your prayer list and please stop for just a moment of your time and say a prayer for them now. Thank you.
