

Tiempo ha transcurrido desde que usabamos el ventilador Bird 3 en nuestras actividades quirurgicas. Por esta razon, la inquietud de ofrecer un material de referencia en cuidados cardiorespiratorios, donde los cuidados son de mucha valia, desde una emergencia asmatica, a un politraumatismo por accidente. Cuidados desde el nacimiento de un prematuro, de cuadros de asfixia, a una insuficiencia respiratoria aguda, a un shock septico, que conlleva un alto indice de morbimortalidad. Conceptos basicos y estrategias en cuidados Respiratorios, es una iniciativa en brindar conceptos que permitan tener una mejor atencion de los pacientes con estas patologias. Evidentemente es importante tener el conocimiento para aplicarlo y es nuestro deseo que sirva de refencia a todos quienes laboramos en este campo de la hemodinamica cardiorespiratoria. Las secciones ofrecidas en esta oportunidad van desde la fisiologia, semiologia, oxigenoterapia, pruebas de diagnostico de funciones pulmonares, la terapia respiratoria, los cuidados de las vias aereas y la ventilacion mecanica nos permitiran tener un mayor conocimiento y ofrecerlo a nuestros pacientes que tanto lo requieren. Deseamos que sea de su agrado.

Fundamentals of Nursing -- Caring and Clinical Judgement, Daviss Basic Math Review for Nurses: with Step-by-Step Solutions, Outcome-Based Reimbursement for Nursing-Home Care (Rand Report), Diabetes in Women: Pathophysiology and Therapy (Contemporary Diabetes) [Hardcover] [2009] (Author) Agathocles Tsatsoulis, Jennifer Wyckoff, Florence M.
