

Critical Care Paramedic is the first and only book written for the expanding field of critical care transport. Utilizing the successful format of Brady's best-selling Paramedic Care: Principles & Practice, this book is both written and extensively reviewed by leading experts in the field. This comprehensive book addresses all aspects of critical care transport including: operations, safety, advanced pharmacodynamics, advanced physiologic monitoring, advanced airway management, medical emergencies, trauma emergencies, organ donation, and other important areas of critical care. Critical Care Paramedic will be the industry standard for critical care paramedic education and available only from Brady.

Maternal and Child Health Nursing: Care of the Childbearing and Childrearing Family: Self-Study Disk and Instructors Manual, Organellar Proton-ATPases (Molecular Biology Intelligence Unit), Invisible Gardens: The Search For Modernism in the American Landscape., Study Guide to Accompany Ingalls & Salernos Maternal and Child Health Nursing, Health Services Management: A Book of Cases, Efficient ethical private practice: A guide for optometric students and progressive practitioners,
