

Annual Review of Nursing Research, Volume 31, 2013: Exercise in Health and Disease

Annual Review of Nursing Research
Volume 31, 2013 Exercise in Health and
Disease CHRISTINE E. KASPER, PhD,
RN, FAAN Series Editor BARBARA
SMITH Volume Editor This landmark
annual review has provided nearly three
decades of knowledge, insight, and
research on topics critical to nurses
everywhere. The purpose of this annual
review is to critically examine the full
gamut of literature on key topics in nursing
practice, including nursing theory, care
delivery, nursing education, and the
professional aspects of nursing. Previously
edited by legendary leaders in the field of
nursing, Joyce Fitzpatrick and Elizabeth
Merwin, ARNR now continues its long
tradition of professionalism with series
editor Christine E. Kasper. ARNR has
brought together internationally recognized
experts in the fields of nursing, and
continues to deliver the highest standards
of content and authoritative reviews of
research for students, researchers, and
clinicians. Past volumes of ARNR have
addressed critical issues such as: Geriatrics
Alcohol abuse Patient safety Rural nursing
Tobacco use Nursing workforce issues
Genetics Disasters and humanitarian
assistance For the first time ever, we invite
readers to purchase either individual issues
of this annual review, or to subscribe to the
complete periodical and gain access to all
previously published and forthcoming
issues.
