

Fast Facts for the Nurse Educator

Springer Publishing invites you to delve into our bestselling Fast Facts series of concise reference books for nurses in a variety of nursing settings. These six selected titles deliver core information used by a variety of nursing professionals including instructors and clinicians. Fast Facts books are packed with timely and accessible information in a personal and easy-to-read format. Short paragraphs, bulleted information, and Fast Facts in a Nutshell provide knowledge you can put to work immediately. Fast Facts books are organized for easy reference to nursing responsibilities, equipment and protocols, medications, procedures, and specialty care, with a focus on demystifying complex procedures so nurses can perform them competently and confidently. Plentiful case studies, and helpful clinical pearls from seasoned experts help to reinforce information. See how the Fast Facts series can serve as an optimal part of your teaching toolkit or your quick reference library. You will find a description of each book along with its introductory pages and first chapter. If you like what you see, visit springerpub.com/FastFacts so that you can browse the Fast Facts series and learn more about the books you are interested in. Includes samples from: Fast Facts for the Clinical Nursing Instructor, Fast Facts for Curriculum Development in Nursing, Fast Facts for the Student Nurse, Fast Facts for the Classroom Nursing Instructor, Fast Facts for Developing a Nursing Academic Portfolio, Fast Facts for Health Promotion in Nursing. Praise for Fast Facts for the Clinical Nursing Instructor: [O]ffers advice on everything from organizing the clinical experience to understanding the legal issues of clinical education....
