

Skills Videos to Accompany Wilkinson and Van Leuven's Fundamentals of Nursing

Real Nurses. Real People. Real Skills. Expert nurses show your students how to perform the skills that ensure their success. Each skill is presented in three ways. Students can select the approach that works best for them. Or, mix-and-match to make sure that they understand every step. **Movie Version**-the perfect approach for visual learners! Watch each skill from beginning to end, without interruption. **The Voice-Over Version**-The best approach for auditory learners! Learn by viewing the same footage with voiceovers that explain what the nurse is doing and why. **The Self-Paced Version**-Great approach for kinesthetic learners! Review video footage in segments to confirm your understanding of each procedure. **DVD Table of Contents** DVD/Text and money saving packages (Packages available June 2010)
