

This volume focuses on the religious beliefs and practices of the Christian, Hindu, Muslim, and Sikh communities in Birmingham—one of the most multicultural parts of Britain. Based on an in-depth study of more than three thousand teenagers in Walsall, *Growing Up in Multifaith Britain* demonstrates that religion is an active and decisive factor in understanding communities and individuals—as well as crucially important for teachers, social workers, and developers of social policy. *Growing Up in Multifaith Britain* makes a strong contribution toward understanding radical Islam in the United Kingdom today, presenting highly topical research on the ways in which it influences the lives and actions of young Muslims.
