

The City Out My Window: 63 Views on New York

From Matteo Pericoli, the celebrated author of *Manhattan Unfurled*, comes a unique collection of illustrated cityscapes. In these intimate drawings of window views, Pericoli captures the essence of the city by showing us what New Yorkers see when they look out their windows. *The City Out My Window* shows us a series of private New Yorks, as seen by Tom Wolfe, Tony Kushner, Nora Ephron, Stephen Colbert, Richard Meier, Oliver Sacks, Mario Batali, David Byrne, and other artists, writers, and thinkers who help make the city what it is. The book includes their comments on what they see out their window and is introduced by Pulitzer Prize-winning architecture critic Paul Goldberger.
