

## Jesus and the Sun: Is Christianity a Solar Myth? (A Christian Response to Jesus Mythicism Book 6)

In *Jesus and the Sun* Albert McIlhenny takes on the ridiculous accusations seen in *Zeitgeist* and elsewhere that the story of Jesus was a metaphor for the sun and zodiac and that the one that Christians worship was little more than an updated version of the pagan sun gods. In the book, he examines the contrived evidence and shows the reader exactly why scholars have ignored such claims and how these claims are little more than conspiracy theories built on the pseudoscholarship of over a century ago. This e-book is part of the series *A Christian Response to Jesus Mythicism* that counters the thesis, popularized through films such as *Zeitgeist* and books by Earl Doherty, Tom Harpur, Richard Carrier, D. M. Murdock (aka Acharya S), and many others, that Jesus never existed. While this view is not taken seriously by scholars, it has entered the popular culture through sensationalistic books, films, and websites. In this series, various aspects of the mythicist viewpoint are subjected to a thorough critique and the bogus nature of their claims exposed for all to see.
