

This short text is recognized as one of the most widely used introductions to the subject of community medicine for medical students, nurses, health visitors, general practitioners, and students of other health care professions. The new edition contains a new section on AIDS and rewritten chapters on the epidemiology of specific diseases. It also includes details on the organization of the health service.

Essentials of Human Embryology, The way of a trout with a fly and some further studies in minor tactics, Oxford Textbook of Palliative Medicine 4th (Fourth) Edition, Anatomy, histology (1980) ISBN: 4061393499 [Japanese Import], A Physician to the Soul 1908, Socrates on Judaism, Christianity, and Islam: Asking the Right God-Questions, Cleocin - A Medical Dictionary, Bibliography, and Annotated Research Guide to Internet References,
