

Any course of action a midwife might take or fail to take and any advice she may give to her client will have legal implications. Every midwife at any level will, therefore, find this compendium on the legal aspects of her profession, an essential guide through the legal framework within which she operates. No previous knowledge of law is required. To make the subject matter easy to absorb, relevant legal statutes are highlighted, legal cases illustrating real-life situations are quoted and discussed, and test-questions follow each chapter. Legal terms are defined and explained in a glossary.

Fasting Girls: Their Physiology and Pathology, Seattle Art Museum: Bridging Cultures, Reading Popular Prints 1790-1870, Walks and Talks of an American Farmer in England Volume 2, Manual of Neonatal Care, Kaplan and Sadocks Concise Textbook of Child and Adolescent Psychiatry 1st (first) Edition by Sadock MD, Benjamin J., Sadock MD, Virginia Alcott published by Lippincott Williams & Wilkins (2008), Proceedings of the IEEE 25th Annual Northeast Bioengineering Conference: 8-9 April 1999, University of Hartford, West Hartford, Connecticut (Northeast Bioengineering Conference//Proceedings), Oxford Textbook of Palliative Medicine (Oxford Medical Publications), Nursing Leadership, Management, and Professional Practice for the Lpn/Lvn,
