The Asian Financial Crisis and the Architecture of Global Finance and the Architecture of Global Finance , Cambridge University Press. The book discusses the political and financial policies of the Asian financial crisis. It is a collection of essays by seven leading economists. The book is divided into two parts: 'Cause and Consequences of the Asian Financial Crisis' and 'The Architecture of Global Finance'. The first part, edited by Gregory W. Noble, discusses the causes of the crisis and the impact on the Asian financial system. The second part, edited by John Ravenhill, discusses the architecture of the global financial system and the role of the Asian financial crisis in its development. The book is published by Cambridge University Press in 2004. It is available in paperback and hardcover. The ISBN-10 is 0521794220 and the ISBN-13 is 9780521794220. The book is available at Book Depository with free delivery. The book is also available on Amazon.com. The book is a key text for students and researchers in the field of international economics and finance.
