

# Standards for Relationship Testing Laboratories, 10th ed and Guidance CD

The 10th edition of Standards for Relationship Testing Laboratories (RT Standards) features new and revised requirements in areas such as personnel responsibilities, first-time accreditation, the use of autosomal markers, testing of backup systems and corrective action. Also incorporated are certain elements of the new Quality System Essentials 2011 as applicable to supplier and customer issues, as well as the interim standards relating to accredited vs nonaccredited activities described in promotional materials. The Guidance for Standards for Relationship Testing Laboratories accompanies the RT Standards as a CD-ROM. In addition to detailed technical appendices, the Guidance contains practical recommendations on how to meet the requirements of the RT Standards. Effective date: January 1, 2012
