

Freshman Manager: Sink or Swim

Freshman Manager, Sink or Swim (aka #FMSOS) is a book about a healthcare managers first year in the hospital setting. It is in simpler terms, a journal converted into a book. You'll read of the author's trials and tribulations, mistakes and corrections, victories and pitfalls as he navigates the complex and not so welcoming world of healthcare management. The author writes in the first person to give a personal feel to the not-so personal world of corporate America. Some illustrations in the book are imagined with the goal of knowledge sharing. This is a simple quick read that those aspiring to be healthcare managers should read, while current health administrators can relate to.
