

Religions of the World

For introductory courses in World Religions; also appropriate as a supplementary text for courses in Anthropology and Sociology of Religion. This intro to world religions is ideal for students with no previous exposure to religion because of its accessible style and comprehensive, yet concise, presentation. Offering accurate, comparative descriptions of religions, it gives background material on religious theory and study, while exploring the historical and cultural factors. Unlike other texts, Religions of the World includes chapters on Native American and African religions as well as Jainism, Sikhism, Zoroastrianism, and Bahai.
