

Veda and Torah: Transcending the Textuality of Scripture (Garland Studies on Industrial)

In this book Barbara Holdrege has set a high standard for comparative work and has made an important contribution to both Hindu and Jewish studies. She has looked at Veda and Torah not simply as scripture, but as systems of meaning, symbol systems, each with its own affiliated meanings, each with its symbolic context, and each with its history of interpretation. By addressing the whole complex in which Veda and Torah have been transmitted and by seeing their uses and interpretations in the traditions that they enliven, Holdrege has problematized and expanded the usage of the term scripture and has enriched the possibilities for significant comparative study.
