

Oncologic Nursing (Springhouse Notes)

This comprehensive study guide uses an outline format to cover the general principles of cancer therapy and supportive therapies, oncologic emergencies, antineoplastic agents, and nursing management of common cancer-related problems, including psychosocial needs. Cancer of the skin, head, neck, chest, GI tract, urinary tract, reproductive system, and hematologic system are covered. Key information is highlighted and complemented by illustrations and charts. Each chapter begins with learning objectives and concludes with points to remember and study questions. Appendices include a master glossary, answers to study questions, and the American Cancer Society's recommendations for screening and prevention.
