

One-Eyed Princess: Gaining Depth in Sight and Mind

One-Eyed Princess shows the journey of a stereoblind person with amblyopia and strabismus doing eye muscle and brain exercises to straighten her eyes and rewire her brain to wake up dormant binocular brain cells to see in 3D. Along the way to seeing the world in more detail and appreciating depth, Susanna learned not only to see the physical world anew but also to feel reborn into a new inner world.
