

This new version of the spellchecker contains nearly half a million medical, pharmaceutical, and bioscience terms that cover 57 major medical specialties. Medical specialties include cardiology, OB/GYN, oncology, orthopaedics, pathology/lab medicine, and radiology. Incorporates most current terms related to diseases, treatments, medical procedures, lab tests, medical and surgical equipment, eponyms, abbreviations, acronyms, and more. Includes newest trade and generic drug names, including drugs approved in 2004. Compiled from several sources—medical dictionaries, periodicals, standard references, and medical Web sites.
