

## Ernst Ludwig Kirchner: Peter Schlemihls Wondrous Story, 1915

Widely considered one of the major works of Expressionist printmaking, this series of spectacular woodcuts by Ernst Ludwig Kirchner is presented for the first time in a comprehensive study, specifically designed to allow readers a full understanding of the artists achievement. Arguably the greatest of the German Expressionists, Ernst Ludwig Kirchners numerous paintings, sculptures, prints, and drawings are loved for their bold colors and dynamics. An admirer of Albrecht Durers woodcuts, Kirchner sought to revitalize the technique for his generation, using a pictorial vocabulary that inspired other Expressionists. This volume presents one of Kirchners most important woodcuts series, based on the legend of Faust. Carved during a stay in a sanatorium near Frankfurt, these woodcuts reflect Kirchners own tortuous emotions as he tells the story of a man who sells his shadow to the devil. This gorgeous edition features several foldout pages that allow readers to compare and contrast each full-page segment. This book also explores Kirchners innovative printmaking technique, which involved sawed up plates stained in monotype style. Essays by Kirchner scholars discuss the series vital contribution to the artists oeuvre, while exploring his extraordinary use of color, line, and shape to tell a story that is at once universal and highly personal.
