

Psychology for Nurses and Allied Health Professionals is a brand new textbook written for all those studying and working in nursing and in the allied health professions including midwifery and health visiting. It provides comprehensive coverage of the core subject areas of psychology: social processes such as conformity, obedience, social behaviour, development across the lifespan, including early experiences, cognitive, adolescence, adulthood and old age - as well as health psychology, stress and personality. Written by the bestselling Psychology author Richard Gross, and Nancy Kinnison, a highly experienced nurse and nursing lecturer, Psychology for Nurses and Allied Health Professionals is a refreshingly new approach to applying the theoretical aspects of psychology to the practical aspects of nursing and health care. This highly illustrated text is accessible, practical, and comprehensive.

A Life in Error: From Little Slips to Big Disasters, Essays and Lectures on the Religions of the Hindus, Vol. 2 of 2 (Classic Reprint), Idiopathic Sudden Sensorineural Hearing Loss, The Medical Review Officers Guide to Drug Testing, Whole Home Health Care: A Complete Guide for the Caregiver, Patient and Family, When Your Child Hurts: Effective Strategies to Increase Comfort, Reduce Stress, and Break the Cycle of Chronic Pain (Yale University Press Health & Wellness), Health Assessment for Nursing Practice - Elsevier eBook on Intel Education Study (Retail Access Card), 6e, The Histology Of The Cell Wall With Special Reference To The Mode Of Connection Of Cells.
