

Excerpt from River Angling Salmon and Trout When the last Edition of River Angling was partly printed (1860), the death of the Author caused it to appear in a less complete state as to arrangement of matter than it would otherwise have done. In the present Edition this has been carefully attended to by the Editor, an experienced Angler; and from this, and the supplementary chapters by him on Creeper Fishing, etc., the Publishers confidently issue the present Volume as a complete work on River Angling for Salmon and Trout.
