

Facility Planning and Maintenance. Topic 1 White Elephantitis (and How to Avoid It.) (The International Sport Administrators Series)

White Elephantitis Wonderful as they seem there is not a sporting facility in the world that actually pays it own way. Or even get used! Part of this is due to the timing and nature of their usage however with a bit of forethought and planning coupled with appropriate management techniques sporting facilities can become an asset to the community rather than a drain on resources. Facility Management involves constant checking, supervising and inspection. The Case Study is The Tank in Darwin, Northern Territory, Australia shows how a useless structure can be converted into a community asset.
