

Succinct Pediatrics: Evaluation and Management for Common and Critical Care

Confidently evaluate evidence-based information to make timely and accurate diagnoses and treatment decisions! Starting with this volume, Succinct Pediatrics will be an ongoing series covering the entire scope of pediatric medicine. Each volume will include short chapters with key features and invaluable tables and algorithms, allowing health care professionals the opportunity to deliver the highest quality of care. The first volume features 72 topics with key points and detailed therapies. The book starts with an overview of the core knowledge needed for medical decision-making. Evidence-based levels of decision support are also provided throughout the book to provide insight into diagnostic tests and treatment modalities. Part 1: Common Problems in Pediatric Practice Covers the top 50 most common problems including: Asthma, Breastfeeding, Colic, Constipation, Cough, Diarrhea, Ear Pain, Fever, Headaches, and Migraines, Rashes, Vomiting, and more. Part 2: Critical and Emergency Care Covers 25 key conditions seen as urgent or pediatric emergencies, including: Acute bleeding, Anaphylaxis, Epistaxis, Heart Failure, Poisoning, Respiratory distress and apnea, Seizures, Traumatic brain injury, and more!
