

THE ART OF HVT is a clinical tutorial collection aimed at medical Orthopaedics students, Chiropractors, Osteopaths and Manual Manipulative Therapists. Along with its companion volumes the work features a number of clinical examinations and treatments of highly skilled techniques. In this volume we concentrate on the cervical spine and upper extremity. The author is recognised by leading accreditation bodies as an authority in his field. The material has all been used successfully in both initial training and Continuing Professional Development and is laid out in easy-to-follow sections. Practitioners and those preparing for exams will find them invaluable in the development of necessary skills and knowledge.

Human histology in its relations to descriptive anatomy, physiology, and pathology, Embryology, Krueck and Sexton: Work in Progress (Works in Progress), Medicaid: Services, Costs and Future, Health and Disease in Four Peruvian Villages: Contrasts in Epidemiology (International Health Monograph), William Penn's Legacy, Problems and Advances in Respiratory Therapy (volume 24 no. 1),
