

The poetic appreciations of gardens by Andrew Marvell and John Keats sit alongside the horticultural passions of Frances Hodgson Burnett and the mythic power of gardens as described by Charlotte Bronte and William Blake. Editor and avid gardener Philip Robinson has paid attention to the small, private plot as much as the grand aristocratic and imperial gardens - from medieval Japan to English Landscape to suburban Arizona - and this collection is sure to inspire and enchant gardeners everywhere.

Textbook of Histology., Meditations of the Masters, Chlorobenzenes (Concise International Chemical Assessment Documents), Universal Kitchen and Bathroom Planning: Design That Adapts to People, Gross Anatomy & Embryology: 2000 Multiple-Choice Questions & Answers, Nurse Case Management in the 21st Century, European Architecture 1750 1890 [PB,2000], Interprofessional Collaboration in Primary Health Care Organisations (Occasional Paper), Landscape Infrastructure: Case Studies by SWA, Topics in Maternal and Infant Health: Selections from the American Journal of Public Health,
