Not illustrated. 1882 Excerpt: ...September Brief, 1880, and I am sure he is on the right road. He recommended sabadilla by inhalation and claims he has cured many severe cases with it. I used it, and although I did not get well, I found that it palliated, and, I think, had a tendency to shorten the disease. I used it with an atomizer. Now can not some of your many readers select an alterative for the membranes that will do better than sabadilla in subduing this undue irritability. Morphia and atropia injected hypodermically will give temporary relief, but it does seem to me that we ought to be able to find a medicine that would be more permanent in its effects. I will say to Dr. Thomas R. Thornton that I went to Minnesota last year to escape the hay fever, and had only some slight symptoms, such as sneezing, discharge of water from the eyes, etc., but no asthma. I am well pleased with the Gleaner. Independence, Ky. J. C. Btland, M. D. For the Bile!. Melange. Editor Medical Brief:-- Physician has written us personally and asks us to give him credit for his facts if we find fault with the last clause of his article. Prolapsus uteri is a malposition; not a malformation. Of over 300 women we have attended during confinement not a dozen have subsequently required treatment for prolapsus, and in the same time have attended as many virgins as married females. Think from J. L. Bauers description of his gonorrhoeal syringe that it would be an excellent thing, although we can not see the use of a barrel containing two ounces of liquid. Dr. Clawson Bickham advises Dr. Bell to throw away his syringe in gonorrhoea. Dont do it. Gonorrhoea is as local as a sore finger. Formerly in our treatment we used an injection as follows: K. Potas.
