

Dementia Care: A Handbook for Long-Term Care Nursing Staff

Sold in packs of 10! Adhere to the Centers for Medicare & Medicaid Services (CMS) dementia care initiative to reduce the use of antipsychotic medications in treating residents with dementia. This handbook will help long-term care nurses understand and address the challenging care needs of residents with dementia at each stage of the diseases progression. Nurses will benefit from the how-to guidance that breaks down CMS initiative, and learn how to provide efficient and effective care to residents. This book provides:

- Guidance on the use of non-pharmacological methods of reducing dementia-related behaviors
- Tips on caring for residents with dementia
- Strategies for educating staff to provide assistance and assurance to residents family members

Table of Contents
